Col. Henry W. Edmonds Third Township's Choice

Six Sailors Stage County Jail Riot

A six-sailor "riot" which was quelled only because the sailors had no more furniture to break up took place in the detention cell of the San Mateo County jail Tuesday night.

The sailors stationed at Tanforan, who were taken to the jail about 10 p.m. by Redwood City police and the shore patrol, broke a settee in the cell into splinters and destroyed a smoking stand. They were released to the shore patrol at 1 a.m. after spending three noisy hours in the 6x12-foot cell.

Although the sailors were not booked either by the sheriff's office nor the police, they were reported to have been apprehended for the shore patrol for celebrating Halloween in a drunk and disorderly manner.

Dr. Gans Appoints Resident Physicians

Dr. Charles C. Gans, director of the San Mateo County Dept. of Public Health and Welfare, this week listed the appointment of two new resident physicians at Community Hospital in San Mateo, to take effect tomorrow.

Appointed were Dr. Herman Pepper of Hollywood and Dr. Genevieve E. Gaard, who recently came to San Mateo. They were appointed by Dr. Gans upon the recommendation of the executive staff of the hospital. One of them will replace Dr. Lincoln McGee and the other will fill a long existing vacancy. A third resident physician is expected to arrive from New York the middle of November, Dr. Gans said.

The best health year on record in the U. S. was 1942.

Belmont Fire Chief Dies Suddenly

William E. Curtis, 47, fire chief of Belmont and resident of that city for the past 20 years, died at Belmont Sanatorium Monday at 2 a.m.

His death attributed to a liver complaint, was unexpected as he had been confined to the sanatorium for only three days.

Mr. Curtis was the first fire chief of Belmont, assuming that position in 1926 when the department was entirely volunteer and before the present Belmont fire district was incorporated.

After serving as chief for a year, he resigned the office in order to devote more time to his business establishment, a garage. Last summer, he succeeded Roussel Smith as fire chief.

During his 20 years' residence in Belmont, he was active in the volunteer fire department of which he was one of the organizers.

At the time of his death, he was president of the Peninsula Water Works Assn., and was manager of the Belmont County Water District. He was a member of San Mateo Lodge, 1112, BPOE.

Surviving Mr. Curtis are his widow, Pearl, a daughter, Mrs. Alvin Griffin, Jr., of Belmont, and the following brothers and sisters: Mrs. L. R. Hendrick of Vallejo, Mrs. Jessie Hansen of Belmont, Dempsey D. Coon of Modesto, W. W. Curtis of Stockton, and A. B. Curtis, also of Stockton.

Funeral services will be held Wednesday afternoon at 2 o'clock at the Layng & Tinney Funeral Home. Services will be conducted by Rev. Noble S. Owings of the Belmont Church.

Interment will be in Alta Mesa Memorial Park.

Editorial

THIRD TOWNSHIP

The campaign for the office of supervisor from the Third Township has been dwarfed by the other contests on the Nov. 7 ballot, but to the people of San Mateo County in general and the Third Township in particular there are few more important matters to be decided.

Our county board of supervisors each year is playing a more important role. As it administers larger and larger sums of money, it becomes one of our chief contacts with government.

There are two candidates for the office, both residents of Redwood City. One is Dr. A. E. O'Neill and the other is Henry W. Edmonds, lieutenant colonel retired, a veteran of overseas service in World War II.

Much of the usual political guff has been written about both men—the type of material that might apply to either by merely changing names.

There is an issue between them which is seldom mentioned, and which the public should be told about. Dr. O'Neill's career in public office has been that of a member of the county board of health and welfare to which he was appointed by the county manager. He has always been the county manager's right hand bower.

This is not said in a derogatory manner. It merely explains why the county manager is so anxious to have his man O'Neill on the board of supervisors. It will help him win more power.

Edmonds is unshackled by any political deals. It is customary to claim that for all candidates, but in Edmonds' case, take our word for it, it is true.

For the rest of it, the campaign is a choice of personalities. The political advertisements will tell you that each is "qualified," "aggressive," "intelligent," etc. etc. in a string of generalities which we are pleased to agree with as a compliment to both gentlemen.

But in choosing between personalities, here's something to set your teeth in: There were four candidates for this office in the primary campaign. All four were from Redwood City.

It stands to reason that Redwood City knows these candidates best and is best able to choose among them.

Redwood City made Edmonds high man at the primary and O'Neill third. The same applied to the Third Township as a whole.

After all, the supervisor to be elected is to represent the Third Township for the next four years. We ask the county to return to office the man the Third Township wants: Edmonds.

OUR RECOMMENDATIONS

General Election Tuesday, Nov. 7

PRESIDENTIAL ELECTORS
THOMAS E. DEWEY for President.
JOHN W. BRICKER for Vice President

CONGRESSIONAL
United States Senator: FREDERICK F. HOUSER.
Representative, 8th District: JOHN Z. ANDERSON.

LEGISLATIVE
State Senator, 21st District: HARRY L. PARKMAN.
Assemblyman, 27th District: HARRISON W. CALL.

COUNTY
Supervisor, 3rd District: HENRY W. EDMONDS.

CITY PROPOSITIONS

1. **City Bond Issue: Vote YES.**
2. **City Plan: Vote YES.**

COL. EDMONDS HAS INTEGRITY, CHARACTER

Recognized as Outstanding Man for Supervisor

Lieut. Col. Henry W. Edmonds, candidate for County Supervisor, is a man of integrity and character and has the respect of the citizens of San Mateo County because he has a splendid record both as a civic worker and as a military man. The people of his own township, where all candidates are known best, made him HIGH MAN while his present opponent ran THIRD in the same area.

Praised By General MacArthur

In a letter to Col. Edmonds, General Douglas MacArthur said: ". . . you leave in the department a record which discloses conscientious and efficient service. The commendatory letters on file are testimony to your ABILITY, ZEAL and ENERGY in the performance of your duties . . . you were awarded the SILVER STAR for gallantry in action, while directing your battalion in attack . . . and the PURPLE HEART for wounds received in action . . ."

SAN MATEO COUNTY REQUIRES MEN OF COL. EDMONDS' CHARACTER AND ABILITY IN PUBLIC OFFICE.

VOTE FOR COL. EDMONDS AT THE GENERAL ELECTION, TUESDAY, NOVEMBER 7

Ad Agency Holds 25th Anniversary

A postwar baby of 1919, Brisacher, Van Norden & Staff, largest western-owned advertising agency, today celebrates its 25th anniversary. Growing from a one man operation to one of the nation's leading agencies with offices in San Francisco, Los Angeles, Hollywood, and New York City, this company demonstrates that there is a school of originality in the Far West that finds a market throughout the nation.

There have been many "firsts" in the creation of advertising campaigns and merchandising plans for western industries by Brisacher, Van Norden & Staff. Some of these have revolutionized previous procedures and have been adopted by advertisers everywhere.

Brisacher, Van Norden & Staff was the first agency to reverse the usual procedure and grow from West to East and establish a complete organization in New York City. While this office was initially established to better serve western industrials who are expanding eastward, it is serving many important eastern advertisers.

Emil Brisacher, president and founder, states that the 25 years just completed, with the postwar ups and downs, have taught many important fundamentals that will enable advertisers to avoid pitfalls in the days ahead when similar conditions are apt to prevail.

Sequoia Night School Shows Big Increase

Showing an increase of 70 per cent over last year, 587 persons enrolled in the Sequoia Evening High School this term, S. S. Mayo, principal, reported this week. Mayo attributed the increase to five reasons, chiefly a realization on the part of the public that education is necessary.

Mayo said that 52 classes are being conducted each week at Sequoia, and in addition, three classes are given in San Carlos, four in Menlo Park, and two at the Redwood City Library.

Mrs. David Bohannon is instructing a class in nutrition which meets each Wednesday from 7:30 to 9:30 p.m. at the high school, Mayo explained.

Wife Asks Arrest Of Frank Tabacchi

Frank J. Tabacchi, 51, Monday night was arrested by Redwood City police on complaint by his wife, Loretta, today pleaded guilty to a charge of disturbing the peace at his arraignment in police court.

Tabacchi was arrested at his home at 464 Hudson St. at 10:15 p.m. yesterday after his participation in a family argument, police said.

Time for sentencing was scheduled for Thursday afternoon at 2 o'clock.

His bail was set at $250 cash or $500 bond.

Held on Investigation For Hit and Run

Donald McCullough, 38, was being held in the county jail on charges of drunkeness, and investigation for hit and run and drunken driving today, following his arrest by Redwood City police officers last night.

McCullough was involved in a collision with a car driven by Lawrence Henderson, 562 Ruby St., Redwood City, yesterday, police said.

The accident occurred at El Camino Real and Main St., at 5:25 p.m.

McCullough's bail was set at $250 cash.

WARDS CARRY SIZES 36 TO 44 IN THESE

36 Sequoia Students To Graduate Mid-Year

Attributing the decrease to the student's apparent desire to complete his senior year, rather than conclude it in six months, Supt. of Schools A. C. Argo said this week that 36 Sequoia High School students have qualified for graduation at the midyear exercises to be held Feb. 1.

This year's total is a drop of nearly 50 per cent from last year, at which time 53 earned their diplomas.

A student-faculty committee began working out the details for the graduation program last week, Argo said.

Two Persons Hurt In Auto Collision

Two persons received minor injuries at 2 a.m. yesterday when their automobiles collided headon on Coast Hwy. south of Point Montara, the California Highway Patrol reported today. Injured were Bruno Angelini, 34, of Half Moon Bay, who was treated at Mills Memorial Hospital in San Mateo, and Harry Chuyko, 30, U. S. Navy, who was treated at Point Montara, where he is stationed. Angelini was driving south, Chuyko was going north.

The first person on record to wear a diamond as a jewel was Aaron (Book of Exodus: 28:17, 18).

Tony Bolich, Jack Goesle Take Redwood City Major League Bowling Honors

Despite the efforts of Tony Bolich, who captured high game honors for the night, Scdini's dropped two games to Redwood Bowl last night in Redwood City major league bowling play. Jack Goesle of Palo Alto Transit won high series with 593. He nosed out Ray Nevis by one point.

Other team winners last night included Towne Motor Co., which swept three straight from San Carlos A. C.; Palo Alto Transit, two-game winner over Rod's & Bob's, and Lebo's, which took the odd game from the 2030 Club.

The week's league bowling will be concluded tonight in men's handicap matches at the Redwood Bowl.

Teachers May Take Special Test Here

Teachers needing the written examination on the Constitution of the United States for their certification may take the test at the Central School, Saturday, Nov. 18, at 9 a.m., Pansy Jewett Abbott, county superintendent of schools said this week.

Tests will be given under the direction of the San Mateo County Board of Education, she explained.

Sugar was made from milkweed by the French Canadians.

Plain facts about really good coffee

COFFEE that's wisely purchased and carefully brewed will be really good coffee. Here are some plain facts about buying and brewing it.

BUYING COFFEE

Choose the blend that you find most satisfactory to your taste. Some are smooth and mild—some are rich and robust. But if you like it, that's the blend for you, no matter what the price tag says.

Buy fresh coffee, whether it comes already ground or packed under vacuum, or is ground to your order at the store.

Get the grind that is best suited to your coffee maker. ("Regular grind," in vacuum-packed coffees, is suitable for all coffee makers; "drip grind" is favored for drip or vacuum makers—store-ground coffee can be specified for percolator, vacuum, drip or coffee pot.)

BREWING COFFEE

Clean containers and coffee makers are required, if you want really good coffee. Keep vacuum-packed coffee in its own container. Before transferring store-ground coffee to your pantry container, make sure that all the old coffee has been removed (a thorough washing with soap and hot water, followed by thorough drying, insures the right result. Even a little old coffee can spoil the new). Thoroughly wash and dry the coffee maker similarly, every day; once a month, boil it out in soapy water to freshen it.

Use enough coffee in your coffee maker. As a general rule, for average strength, 1 rounding tablespoon or 2 level tablespoons for each standard 8-ounce cup of water.

For stronger coffee, use more ground coffee—longer brewing simply spoils the flavor.

Have the water boiling briskly.

Measure both the coffee and water carefully, each time, to avoid disappointment.

Never use grounds twice—and never reheat.

S.M. Council Plans Scout Forums

Ian Lang, chairman of leadership training for the San Mateo County Scout Council said Wednesday that scouter forums will be held at the Central School on three successive Tuesday nights beginning on Nov. 14 to discuss the elements and activities of typical scout meetings.

The subject matter at the forums will enable any man to immediately assume direction of a scout unit and qualify him in the basic elements of scouting. All men over 18 and citizens are eligible to attend.

The scout office in the old library building will be open on Tuesday afternoons and evenings prior to the course and applications for attendance may be placed on those days or by calling the council office in Burlingame.

Lang will be assisted in the group presentations by William Van Voris, J. V. Christie, Chet Wilson and E. A. Barrer.

Troop 104 is busy preparing for the forthcoming court of honor by working on advancement. L. W. Allen, scoutmaster, announced the troop will reregister on time for its 1944-45 charter with about 19 scouts on the rolls and with more than two-thirds of the members subscribing to Boys' Life.

Troops 105, 143, 149 and 150 report varied activities all pointing to the big court of honor on Nov. 20. Signaling, first aid, fire-building, judging, cooking and other subjects have received attention in the past week. These fellows have the right idea—advancement.

Troop 153 rang the bell recently as they boosted their total membership score to 50 by enrolling two new members. They are all going to the court of honor, so look them over and count 'em.

Troop 154 featured knot-tying and signaling at their last meeting with Own Hall's patrol winning in knot-tying and Ted Miller's patrol taking first place in signaling.

Feature of the meeting was the presentation by the scout mothers of Troop 154 of 24 merit badge pamphlets to add to the troop library. Mrs. Bersinger made the presentation. To top off the meeting ice cream and cookies were served by the members of the mothers club with Mrs. Cook and Mrs. DeBow assisting Mrs. Bersinger.

Charles Davey and John Milbery were brought in by George Van Sciver and admitted to membership

RETIREMENT PAYMENTS, GROSS INCOME TAX. Initiative Constitutional Amendment. Adds Article XXX providing $60 monthly payments, beginning June 1945, to citizens having required residence, who are sixty years old or over, or totally and permanently disabled, including those in military service, or blind. Recipients prohibited from gainful occupation and required to expend payments. Provides 3 per cent gross income tax on persons and organizations, except non-profit organizations; proceeds distributed between State General Fund and special fund established for payments. Permits increase of payments, reduction and increase of tax, and relaxation of eligibility requirements. Repeals Sales and Use Tax.

Yes	
No	X

What No. 11 Really Means:

1 It all started in Los Angeles. **It is the 1944 version of Ham and Eggs.** Recognize it for what it is—the repudiated pension proposition.

2 It would impose a crushing tax on California to enable all persons of 60 years or older, regardless of wealth, to retire in indolence and spend the rest of their days being supported by the producing part of the population.

3 This crushing tax burden would be in the form of a 3 to 5 per cent gross transactions tax on **all personal income and every business transaction.**

4 This tax would raise the cost of living in California from **15 to 25 per cent.** It is a hidden tax and subject to all the deceptions of such taxes.

5 It would abolish the state sales tax of 2½ per cent. **This is a baited hook to get the votes of the unthinking.** In the present fiscal year the schools of San Mateo County will receive about $638,000 from the sales tax. **Repeal this tax and you make up the difference in property taxes,** 48 cents per $100.

6 This pension would be granted willy-nilly to everyone over 60 years of age as a matter of RIGHT and NOT as a matter of NEED. This might lead to revocation of federal aid for the aged needy—aid based on need alone, $280,000 a year in San Mateo County, or about 20c per $100 more direct taxes.

7 It would bring into being another taxing machine and a horde of job-holders—administrators, investigators, clerical help, theorists, prosecutors and the inevitable political favorites.

8 The men behind this pension proposition estimate that the gross transactions tax would produce ONE BILLION DOLLARS ($1,000,000,000) every year, or twice the revenues of California even in these flush days.

9 **There is financial chaos ahead for California—a crisis the outcome of which it is impossible to foresee—if this pension proposition is approved.**

10 Above all, **DON'T BE DECEIVED** by the **BAIT** to vote to abolish the state sales tax of 2½ per cent.

Judge Says Officer Merely Doing Duty

Superior Court Judge Maxwell McNutt today ruled that A. Fernandez, San Bruno police officer, was merely carrying out his duties when he arrested Domenico Fabbro, Redwood City baker, and booked him en route to the U. S. marshal early the morning of Aug. 23.

Judge McNutt's decision followed a trial of a suit for $10,000 damages for "malicious arrest" filed against Fernandez by Fabbro. Judge McNutt declared the police officer had orders to book a man of draft age en route to the U. S. marshal when he could not produce a draft card. Fabbro did not have his draft card with him.

Proposed State Amendments Would Affect S.M. County

Eight amendments to the state retirement plan which would effect more than 500 San Mateo County employes as well as county employes throughout the state will be submitted to the state legislature at its next session, it was voted at the annual conference of the League of County Employes Assns. of California at Fresno over the weekend.

Three delegates from the San Mateo County Employes' Assn. were back in Redwood City today after attending the meeting Saturday and Sunday, at which time they were named to various committees. S. J. Cowgill, probation officer, was chosen to the legislative committee; Mura B. Stilleson, deputy in the county clerk's office, was appointed to the membership and publicity committee, and Mrs. Mona L. Christensen, chief assistant probation officer, was named to the resolutions and nominating committee.

Vigorous objections were voiced at the convention to civil service commissions working through department heads for their information instead of working with the county employes themselves. San Francisco Civil Service Commission was pointed to as an outstanding example of a commission carrying out its program 100 per cent for the employes.

The delegates will make a report of the convention at a meeting of the employes' association, Nov. 27.

The delegates at Fresno urged changes in the retirement act permitting employes transferring to other counties to retain seniority rating and for leaving contributions in the fund when quitting a job as an endowment benefit at the age of 65, the Associated Press reported.

Another resolution recommends participation of elective officials in the retirement program without depending upon re-election at the polls.

"Windmill Wings"

The "windmill wings" of an autogiro turn against the wind., although it is the force of the wind that turns them. These wings are power-driven only when the craft is on the ground.

For each dozen eggs produced, a hen will eat about seven pounds of feed.

Ready-Built Home Factory For Peninsula

The long discussed pre-fabricated type of home is to become a reality on the Peninsula soon, an announcement by J. S. Barrett, head of Barrett & Hilp Contractors in South San Francisco said Wednesday.

Barrett said that a factory that would be capable of turning out five houses a day on a production line plan, will be erected by a nationally known concern headed by a San Mateo man.

Barrett said that the site had not been definitely selected but it was believed that a spot in the north part of the county would be selected.

It was not learned whether the firm had made any study of the possibility of locating in Redwood City.

E. W. (Ned) Butler, manager of the Redwood City Chamber of Commerce this afternoon said that no one had contacted him in regard to the possibility of locating the factory in Redwood City.

Homes which will be delivered to a building site in wall sections, and which will be ready for occupancy within 10 days from the time that an order is given will come off of the production line in plants to be located on the Peninsula, Los Angeles, Seattle, and New York, Barrett said.

Barrett is chairman of a million dollar concern known as Precision Built Homes Corp., with headquarters in New York. He announced today that a 5-room home of ultra-modern architecture, including the very latest in plumbing equipment, ready for occupancy, will be sold on the easy payment plan, at a total cost aside from the price of the site, for $5500.

Orders for 5000 of these homes have been taken up to Oct. 31, Barrett revealed. These orders, he stated, were placed through two large Eastern department stores, R. H. Macy & Co., in New York City, and Bamberger's in Newark, N. J.

It is the plan of the company to merchandise these houses in three ways: namely, through orders taken in department and furniture stores, through builders, lumber firms, realty dealers, insurance companies, building and loan associations and through industrial companies for their employes for export market.

Mass production, in sections at factories make possible the low cost for well-built 5-room homes, said a statement sent out by Barrett's corporation.

It was explained by Barrett to the Tribune today that 25 architectural designs will be offered to buyers. A purchaser who does not want to pay cash may finance through the FHA. The average lot in outlying sections will sell for $1000. The lot, plus the price of the precision built homes, brings the total cost to $6500. If the FHA approves valuation of lot and house, a buyer need only to make a down payment of $50, covering both site and structure.

In addition to this down payment, there are title costs which in this county total for a transaction of this amount, $61.25. In addition, the buyers must put up $7.15 for Federal Tax stamps, Barrett said.

"Then it's a matter of moving in and paying $43.73 a month to FHA, which covers principal, interest and loan insurance. In a 20-year period the home is yours. Naturally, taxes and fire insurance must be met each month," Barrett concluded.

Two Seriously Hurt in Accident

Two persons were seriously injured and a third received minor injuries in an early-morning crash of an automobile and a motorcycle today on El Camino Real at Lomita Park.

Mrs. Nora Dannenberg, 37, 429 Mastick Ave., San Bruno, received fractures of both ankles when she was thrown through the windshield of the automobile in which she was riding with her husband, August Dannenberg, 37, of the U. S. Coast Guard stationed at Mills Field. She also received lacerations of the face.

James Stevens, 16, of San Francisco, operator of the motorcycle, received back injuries and severe lacerations of the head.

Dannenberg, who escaped with minor injuries, told the California Highway Patrol he was wiping steam from the inside of the car windshield when the accident occurred. Both vehicles were headed north.

All of the injured parties were taken to South San Francisco Hospital for treatment.

Sanatorium Employes Try To Take 'Ride'

Memories of a "midnight ride" in which a porter and a girl patient of Canyon Sanatorium were killed and two other girl patients were injured were recalled Monday with the firing of a porter and a utility man at the county institution and the arrest of one of them for allegedly attempting to take a night ride in a county-owned station wagon Saturday night.

Vincent J. De Rose, 21, a discharged war veteran and porter at Canyon Sanatorium, was arrested yesterday afternoon when he walked into the Redwood City Police Dept. to inquire about the location of the Red Cross headquarters. He was booked at the county jail for investigation of tampering with an automobile.

Arthur W. Kidd, 25, utility man at the sanatorium where he had been hired last Wednesday, was being sought today by the San Mateo County sheriff's office on a similar charge. De Rose was hired Oct. 18.

Dr. J. O. Greenwell, superintendent at the sanatorium, fired the two men yesterday and called the sheriff's office to arrest them. He said that Saturday night about 9 o'clock De Rose and Kidd pried the padlock from the garage door with a spade and tampered with the station wagon switch in an unsuccessful attempt to drive off in it.

De Rose told sheriff's deputies he was in bed Saturday night at 9 o'clock and Kidd asked him to go for a ride. He got up and went with him, he said. He declared, however, that the lock was already off the garage door when he got there.

The incident recalled the night of Dec. 18, 1941, when Fred Cooper, 33, of Redwood City, a porter at the county institution, took three teenage girl patients for a "midnight ride" which resulted in the deaths of Cooper and one of the girls. Two other girls received serious injuries.

Cooper's car failed to negotiate a curve on Woodside Rd. near Valota Rd. and crashed into a power pole. The girls had been put to bed but had fixed pillows and covers to form figures to resemble occupants before taking their ride.

Elizabethan Sugar

Queen Elizabeth of England first introduced sugar into her domestis household as an article of diet in the middle of the 16th century. Prior to that time, the limited amount produced was mainly used for medicinal purposes.

Dates were raised on the banks of the Euphrates more than 4000 years ago.

Ward Heads 6th War Loan Drive in R.C.

As the nation marks time for one of the biggest money-raising campaigns in history, Redwood City this week made its first move in connection with the Sixth War Loan Drive with the appointment of Carl E. Ward, manager of the American Trust Co., here as chairman of the drive by J. A. Buhler, director of the war finance committee in Redwood City-Woodside-Portola district.

This area's quota for the coming campaign will be $750,204, of this amount, $311,216 is to be raised through individual sales. The national quota established by Secy. of the Treasury Henry A. Morgenthau is $14,000,000,000, which is $2,000,000,000 less than the Fifth War Loan Drive.

Ward announced that the drive will start locally on Nov. 20 and will continue through Dec. 16. However, credit for purchase of individual bonds will be given to the community for the entire period from Nov. 1 to Dec. 31.

Ward named the following committee to assist him in the campaign in this area: R. E. O'Connell, Ted Thompson, Hall Jacobs, Floyd McCue, Fred Gibbs, Walter Kellogg, Clifton Woodhams, Mrs. Henry Beeger, Mrs. Liguori, and Buhler.

The group is now being organized to handle the various phases of the drive, Ward said.

He urged that local citizens invest their funds in War Bonds so that Redwood City may again exceed its quota.

During the Fifth War Loan campaign in July, people in this area purchased more than a million dollars worth of bonds, exceeding their quota by approximately $200,000.

Ravenswood Area Drive Misses Goal

Reporting that their Community Chest-War Fund goal of $3000 for the Ravenswood-East Palo Alto area remains far from reached at the present time, Co-chairmen, J. H. Stubbe and J. L. Connolly explained that small donations of 25 cents and $1 each are adding up slowly in the quest for the 1944 quota.

Stubbe, who is directing the campaign east of Menalto Ave., and Connolly, head of the western section, asked that anyone who has been overlooked by solicitors in that area, or who wishes to increase the pledge he has already made to the War Chest, should contact one of the two colonels.

In January of this year, there were 214 trade disputes in Britain, involving 90,000 work-people, and causing the loss of 232,000 working days.

City Attorney Explains Why Two Measures Are On the 1944 Ballot

BY PAUL A. McCARTHY

Two measures to be voted on in Redwood City on Nov. 7 are at the end of the ballot used at the general election.

The first of these is a single proposal to issue $998,000 of city bonds for 17 separate projects listed in the pamphlet entitled: "Post-War Redwood City," already mailed to every householder in this city. To approve this measure you should vote YES.

The second measure proposes for your approval the "1944 City Plan" of Redwood City. All the projects for the postwar improvements in the city are grouped together to make this "1944 City Plan."

The submission to you voters of this second measure is required by the state law relating to the issuance of bonds in order to validate the plan to combine all the improvements into one bond issue. The "1944 City Plan" has had the unanimous approval of the seven councilmen, the nine members of the City Planning Commission and city administrative officers, all of whom gave it thorough consideration before approving it. If a majority of the voters approve the plan, it avoids the submission of the 17 projects separately.

The combination of all the projects into a comprehensive, unified plan beneficial to all parts of the city and all elements of the population—residential, commercial and industrial—makes appropriate provision for all the present deficiencies. Many of these have resulted from inability to obtain labor or material to do necessary public works during the war and the period of intensive industrial activity preparatory for the war. However, the need for some of the most essential projects is less appreciated than other projects, the need for which is all too apparent. A single "1944 City Plan" overcomes the danger of some most worthy project being defeated to the detriment of the whole plan. For instance, if the urgent sewage treatment and disposal plant were defeated, the whole plan for avoiding an increase in the taxes would be in jeopardy. The reason for this is that the sewage treatment and disposal plant involves the institution of a charge against each water user for the privilege of discharging waste water into the sewage system. This charge, not exceeding 50 cents a month per household, and proportionately larger amounts for each business and industry, will make it feasible to keep the written assurance given by the city council that no increase in taxes will follow the approval of the bond issue.

This plan for the equitable distribution of the cost according to the use of a sewer system has been put into effect in 171 cities in this country and is also contemplated in San Francisco and Los Angeles in connection with sewage treatment and disposal plants to be built in those cities.

The "1944 City Plan" is one for a citywide balanced program of improvements required during the five or six years following the return to normal industrial conditions after the termination of the war. It is expected that no bonds will be sold until the city can proceed with the most necessary items of the plan when labor and materials are available.

As the booklet distributed to voters shows, the bonds will be issued in series—probably five—over a period of five years or more from the date of sale of the first series. In the meantime, a substantial part of the present city debt will have been paid off and any increase in taxes by the sale of new bonds can and will be avoided. By the city being in a position to sell the first series of approximately $360,000 of bonds promptly when labor and materials are available, the present extremely favorable rate of interest for municipal bonds will be available. This rate today and for the last year or more, for a bond issue of Redwood City or any other city with the same excellent credit, is less than 1½ per cent a year for bonds to be paid off annually over 20 years. This is the lowest interest rate ever applicable to municipal bonds—about one-third of the rate prior to 1930.

In all computations made by the city officials, the annual amount required to pay the interest and principal of these bonds is nevertheless based on an assumption that an average rate of 3 per cent interest might have to be paid. This basis was used upon advice of investment bankers that this city would not have to pay more than an average rate of 2½ to 3 per cent interest on the bonds if sold in series over a period of five years following the termination of the war when some increase in interest rates may occur.

In reaching the determination that this bond issue will not require any increase in the tax rate, no allowance was made for any increase of revenue from additional homes, places of business and population during the period following the end of tne war. However, most authorities agree that a great influx of people to the Peninsula and other parts of California, with a corresponding building activity, will follow the war. If so, there will be not only no increase in taxes for this bond issue, but the charge to the householder and others for sewer service can be substantially reduced.

Thus only the most conservative basis has been used both as to interest rates and sewer revenue; still, assurance is given that taxes will not be increased by this bond issue. To approve it, vote YES.

PUBLIC NOTICE

Notice of Time Appointed for Probate of Will—No. 11731

IN THE SUPERIOR COURT OF the State of California, in and for the County of San Mateo.

In the Matter of the Estate of ISABELLA H. STEWART, Deceased.

Notice is hereby given that Monday, the 13th day of November, A. D. 1944, at 10 o'clock a.m. of that day, and the Court Room—Probate Department No. 1 of said Court, at the Court House in Redwood City, in the County of San Mateo, State of California, have been appointed as the time and place for proving the will of ISABELLA H. STEWART, deceased, and for hearing the application of EARL C. STEWART for the issuance to him of Letters Testamentary thereon. Reference to said petition is hereby made for further particulars.

Hilton Endorses USMS Campaign

Mayor Hilton this week gave official recognition in Redwood City to a United States Maritime Service campaign for 1000 volunteers during November by urging all citizens of this city between the ages of 17 and 50 to take part in the "battle of supply by joining the United States Maritime Service."

Mayor Hilton met with Lt. Comdr. C. L. Mosher, maritime service enrolling officer, during which time they discussed the organization's volunteer drive.

After the meeting, the mayor issued the following statement: "Bay area quotas for the U. S. Maritime Service for the coming 30-day period is 1000 volunteers. This need is occasioned by the information that General MacArthur will need 1200 ships and 332,000 tons of supplies to keep his army in the Philippines adequately supplied."

The USMS enrolling office for the Bay Area is 1000 Geary St., San Francisco.

Foggiest Spot in London

London's foggiest spot is the city hall, Westminster. It recorded 104 days of smoke-haze between October, 1932, and March, 1933.

The nation's automotive plants have produced more than four billion dollars worth of airplanes, engines and aero equipment in three years.

Franklin Seaverns To Receive Award

Franklin Seaverns, 81 Dexter Ave., Redwood City, was one of seven civilian employes of the Army Service Forces, Ninth Service Command, to receive awards for suggestions aimed at improving War Department methods and procedures, Col. H. H. Galliett, commanding officer of the Presidio of San Francisco announced this week.

Seaverns is employed at the service command signal repair shop.

Awards to civilian employes at the Presidio have reached a total of $783.16 during the past year. An estimated saving of $25,000 in manhours and material has been made since the inception of the suggestion program a year ago, Colonel Galliett stated.

Ice Skating Back in S.F. For Winter

Sunny skies notwithstanding, ice skating is back in San Francisco again on a big scale, with thousands of California devotees of winter sport again pursuing their favorite pastime.

The popular ice activity got under way again after a lapse of two years, along with an announcement that organized ice hockey will be played at Winterland twice weekly, commencing Saturday, Nov. 25.

Winterland, for six years the San Francisco home of the Ice Follies and public ice skating, will house the hockey teams of San Francisco and Oakland, it was declared today by George J. Campbell, vice president and general manager of the local ice arena.

The San Francisco team will be the "Shamrocks" and the Oakland team will be the "Oaks," Campbell said.

League games will be played at Winterland every Wednesday and Saturday night for an estimated season of 30 weeks. Los Angeles, Hollywood, San Diego, Seattle, Portland and Van Port, the industrial city outside Portland, will all have teams in the league and play will be based on an interchange schedule.

Coaches in San Francisco for the two Bay City teams will be Laurie Scott and Denny Edge, both widely known as hockey mentors. Scott is currently in the North recruiting players, and reports that he has a top-notch aggregation lined up.

The big rink at Post and Steiner Sts. will be open to the public day and night throughout the season, Campbell said.

Present schedule of hockey play at Winterland, subject to changes which may be necessitated by travel difficulties, has been announced by Campbell, as follows:

Nov. 25, San Francisco and Oakland; Nov. 29, Oakland and Seattle; Dec. 2, San Francisco and Los Angeles; Dec. 6, San Francisco and Portland; Dec. 9, Oakland and Pasadena; Dec. 13, Oakland and Van Port; Dec. 16, San Francisco and Vancouver; Dec. 20, Oakland and San Francisco and Hollywood; Dec. 23, San Francisco and Hollywood; Dec. 27, Oakland and Pasadena; Dec. 30, Oakland and Hollywood;

Jan. 3, San Francisco and Seattle; Jan. 6, Oakland and Pasadena; Jan. 10, Oakland and Portland; Jan. 13, San Francisco and Oakland; Jan. 17, Oakland and Seattle; Jan. 20, San Francisco and Pasadena; Jan. 24, San Francisco and Van Port; Jan. 27, Oakland and Los Angeles; Jan. 31, Oakland and Los Angeles;

Feb. 3, San Francisco and Vancouver; Feb. 7, Oakland and San Francisco; Feb. 10, Oakland and Hollywood; Feb. 14, San Francisco and Portland; Feb. 17, San Francisco and Los Angeles; Feb. 21, Oakland and Seattle; Feb. 24, San Francisco and Van Port; Feb. 28, San Francisco and Vancouver;

Mar. 3, Oakland and Los Angeles; Mar. 7, open; Mar. 10, San Francisco and Hollywood; Mar. 14, Oakland and San Francisco; Mar. 17, San Francisco and Pasadena.

Village Lighthouse

The village of Blyth, Northumberland, England, has a lighthouse in the middle of the town. It originally stood at the mouth of Blyth harbor, but the river changed its course, leaving the lighthouse high and dry.

Clear the wires for them from 7 to 10 P.M.

We'd like to ask a favor of you—for those in the camps.

Whenever you can, give the service men and women first chance at Long Distance between 7 and 10 each night. They'll appreciate it a lot.

City Manager Summarizes 1944 Redwood City Plan

BY R. W. MEAD

Six articles on the improvements contemplated in the 1944 Redwood City Plan have appeared in this newspaper during the past few weeks, explaining in detail its various phases.

Speakers have appeared before service clubs and other groups to explain and answer specific questions regarding it.

Supplementing these channels of information, an illustrated booklet describing the projects to be undertaken, with costs and methods proposed to meet them, was mailed every home in the city.

The development of Redwood City depends upon the initiative and forethought shown now in organizing a practical, workable, postwar program. It is not enough to have the plan on paper. Funds must be assured to put it into immediate operation when the time comes.

The total estimated cost based on today's prices and wages, is $998,000. If approved on Nov. 7, bonds will be issued in five series. They will be paid off within twenty years at an interest rate not likely to exceed three per cent.

The proposed fee to users of the sewage service, will pay the $300,000 required for the disposal plant. With the decrease of the city's present bonded debt, and the revenue from the sewage service, there will be no increase in the tax rate to pay present outstanding bonds, and the $998,000 bond issue.

With no additional burden on the taxpayer except for the sewer service charge of not more than 50 cents per month for each house connection, with a decreasing fee as the indebtedness is paid off, the passage of this bond issue will bring substantial benefits that will not only add to the pleasure of living but place our city in line with other progressive communities in the state.

The construction of modern sanitary facilities; the repair, replacement and installation of up-to-date electrical equipment, pavements and sidewalks; and drainage and flood control measure, are all obviously essential, and when completed will not only supply the city with badly needed public utilities, but add to its desirability as a place in which to live and work.

Municipal services must expand with the growing population. Adequate police and fire service, assuring the prospective home buyer of his family's safety, will be added incentives for investment.

Beautification of streets, city entrances, and parks, with modern recreational facilities, are advantages to which modern city dwellers are entitled, and will pay big dividends in happier and healthier community living, as well as provide further inducements to draw the discriminating and desirable type of residents we wish to attract to Redwood City.

Every householder is urged to read carefully the copy of "POST-WAR REDWOOD CITY" recently mailed, and after an analysis of the facts and figures contained therein, decide whether Redwood City can afford to miss the opportunity to adopt a practical, economical post-war program that can be put into operation as soon as manpower and materials are available.

Empties Would Help

If sportsmen, skeet shooters, and other marksmen, were to turn in all their discharged shells and cartridges, they would add more than 2,000 tons of war metals to the national scrap pile.

Balsa Is Tropical Wood

Balsa, the lightest wood known to man, is found almost anywhere in the tropics. The wood, one-half as heavy as cork, weighs only five to seven pounds to the cubic foot.

600 Attend YMCA Party At McKinley

Six hundred boys and girls and their parents packed the McKinley School auditorium Tuesday at the annual Halloween party sponsored by the Redwood City YMCA.

Tickets to the Sequoia-Palo Alto High School football game and tickets to the Sequoia Theater were given as prizes to winners of games on the stage and for the best costumes. Games also were given as prizes. Contests for games and costumes were judged by age groups. B. B. Berman of Redwood City, former professional entertainer, was master of ceremonies and led the games.

The audience heartily received the acts of the service people from Treasure Island. On the program were Bob Kingery, armed guard center, acts of magic and ventriloquism, with "Tiny," the sea-going dummy; Seaman 1/c Dwight Davis, balancing act; Yeoman 1/c Lois Koch, vocalist; Seaman 1/c Fred Shaffer, pianist, and Seaman 1/c John Woodworth, vocalist.

Movies were shown, but the movie machine "acted up" and the last film could not be finished.

Sgt. W. H. (Bud) Thorpe of the Redwood City Police Dept. gave a short talk advising the youngsters against doing any damage because of the difficulties of making repairs during the war.

Andrew Spinas, superintendent of Redwood City schools, was chairman of the program.

Bond Retirement Plan Detailed

City Mgr. Robert W. Mead gave the detailed method by which it is claimed that the $998,000 municipal bonds on the Nov. 7 ballot could be retired without increasing the city tax rate.

The city is providing $72,313 for bond retirement this year, he pointed out. The amount for retirement of present bonds will diminish year by year until 1959-60 when the last payment of $3165 will be made.

Retirement of the proposed $998,000 bond issue would start in 1946-47 with a payment of $9000 principal and $10,800 interest. These amounts added to the $73,115 for current bonds would bring total bond issue payments to $92,915.

This would be the peak year, Mead explains.

In 1951-52 all bond requirements would be $90,010, including $28,690 for existing bonds, $35,000 for retirement of principal and $26,320 for interest on the proposed bond issue.

Bond retirement requirements would be in the $80,000-$90,000 bracket until 1959-60 when the total would be $75,235. By 1963-64 the total would be down to $65,020 and the final payment would be made in 1969-70, $40,170, including $1170 in interest.

Mead points out that by assessing the cost of the sewage disposal plant, $300,000, against users by monthly use charge, one-third of the redemption figures listed would be transferred from the tax rate to another form of revenue and that the tax rate for bond redemption would remain below present levels.

San Carlos Democrats Enter Final Week

The San Carlos Democratic Club has entered the closing week of its campaign before the election next Tuesday, spurred by San Carlos' biggest 1944 political rally at which it was stated that re-election of President Roosevelt is essential to future foreign relations and a lasting peace.

Arthur L. Johnson, candidate for Congress, assailed the "No" vote record of his opponent on matters affecting national defense, wartime control of prices, labor and the farmer. Johnson declared he had the support of every organized labor group in the Eighth District, and that non-corporation farmers were for him.

Municipal Judge Leo Cunningham of San Francisco led an open forum. Rene Cazenave was chairman of the rally. Councilman Pat Kearns introduced the speakers.

Fire Damages Menlo Cottage

Fire of an unknown origin Monday night extensively damaged a cottage occupied by Mrs. Cora Hawthorne and her daughter at 648 Partridge St., Menlo Park, last night at 9 o'clock, causing a loss of $2000 to the structure and its contents.

The blaze was not discovered until it had reached the roof, and when Menlo Park firemen arrived, flames were raging out of control in the living room.

According to Fire Chief Thomas E. Cuff, Mrs. Hawthorne and her daughter were gone from the house, which is situated on the rear of a lot, and the fire was discovered by a neighbor.

Firemen removed bedroom and kitchen furniture from the cottage although the fire had gained too much headway to enable them to save any of the living room furnishings.

The house, which is insured, is owned by E. H. Schroeder, and had been occupied by Mrs. Hawthorne for only a week.

GUIDA CASE

Superior Court Judge Maxwell McNutt Monday took under submission an alternative writ of mandate filed by Vincent Guida of Redwood City to compel the California Real Estate Commission to renew his real estate license.
